The SCR HealthyCow24® Solution

Stay connected! Anywhere! Anytime!

The SCR HealthyCow24® Solution enables Heatime® users to stay connected to the farm by using new mobile and web applications

Full mobility

Enhanced management

Advanced service

SCR by Allflex
Make every cow count

Full mobility

Stay connected and in control of your farm from anywhere. With access to your farm data from a mobile device or computer, get **real-time** alerts and reports and always stay connected and in control.

- Portal and mobile app deliver convenient access to your Heatime farm data
- View and edit farm data remotely
- Get real-time notifications and reports on your mobile device including labor related alerts

Enhanced management

Make better, data-based decisions by seeing the big picture at a glance, with drill-down options to data and graphs by individual cow, group or herd.

- Built-in integration with third-party herd management software for more efficient management
- Work efficiently, with real-time cow status and the option to update data in the field.
- Improve your decision making, using automatically analyzed data

Advanced service

Ensure reliable access to your farm data, online backup and restore, and easy remote software upgrades.

- Farm data is always safe, with online backup and restore
- Keep advancing, with remote software upgrades

Note: the SCR HealtheCow24 requires a constant internet connection.
