

Palm Abbe™

Digital Refractometer

DD-1 DAIRY REFRACTOMETER

The DD-1 Digital-Dairy Refractometer will directly read the percent solids in waste milk and can also measure colostrum quality using the Brix method. The MISCO Digital-Dairy™ refractometers are specifically designed to help professional dairy farmers and calf ranchers to rear healthy calves. They are rugged enough to withstand the demands of farm use, yet precise enough to give laboratory-quality readings.

Model: PA202X Part No.: 003-466

Scale #	Unit of Measure	Range	Resolution	Precision (+/-)
Colostrum				
003	Brix	0 to 85	0.1	0.1
Waste Milk				
466	% Total Solids	0 to 30	0.1	0.5
